has provided them with the tools to perform successfully in the internship.

An evaluation report is due at midterm from the intern's supervisor.

Meeting with Professor

When you are at least halfway done with your internship, you must schedule a meeting with Dr. Chornet to discuss your development in the internship. Consider what you have learned throughout your studies, how that compares to what you have experienced on the job, and how you have implemented the theories and concepts you learned in class.

- Upon completion of 150 hours, the intern submits a four-page critique of his/her experience and a final evaluation from the internship supervisor. These final critiques remain on file for the future reference by students who may be interested elsewhere.

Students are encouraged to report internship experiences to the Internship Director informally throughout the semester. Drop-in visits during posted office hours are recommended. Students or site supervisors should report concerns as early as possible so that they can be resolved immediately. Problems should not wait for midterm or final reports.
